GENERAL INFORMATION

CUSTOMLINE CLEANING SYSTEM

The **Customline section** is meant for customers who have specific requirements. Together we will configure the cleaning system to achieve the highest efficiency and quality of cleaning according to your wishes and expectations.

CLEANING TECHNOLOGY

The AirJet® series cleaning systems represent unique **Air-bubling technology** developed and manufactured by DCT. All three chambers can be used at the same time, which increases the cleaning capacity of the system and reduces cross-contamination compared to single-chamber systems.

CHAMBERS & PROCESSES

3 CHAMBERS

3 PROCESSES - CLEANING, RINSING, DRYING

PROCESS CONTROL

- **Liquid and filter replacement notification** - cycle counting
- **Minimum level warning** - cleaning and rinsing fluid

STANDARD EQUIPMENT

MECHANICAL EQUIPMENT

Castor wheels with brakes - BLICKLE

Spare parts (base kit)

ELECTRO EQUIPMENT

PLC controller + 5,7" touchscreen display - IDEC

Heating system - cleaning and rinsing fluid

Drying system - hot air

Emergency stop button

ESD earthing point - for operator

SOFTWARE EQUIPMENT

Language version - Czech + English

Three programs with individually settable parameter

Three-level logging rights - operator, maintenance, engineer

Minimum level warning - cleaning and rinsing fluid

Liquid and filter replacement notification – cycle counting

MANDATORY EQUIPMENT

Status light main + acoustic signalization IDEC

OPTIONAL EQUIPMENT

HARDWARE EQUIPMENT

Automatic cleaning agent refilling (without pump-ready mix)

Stainless steel drip tray - ESD floor protection

External portable pump

Drain valve with lock

ELECTRO EQUIPMENT

Electronic control - drying spirals functionality

Control of external exhaust ventilator - instalation at customer

Transformer with/without UL

SOFTWARE EQUIPMENT

Language mutation (CZE, ENG, GER, POL, CHI, RUS, ITA, SPA, MAY, HUN)

TRACEABILITY

Traceability ON line

Traceability OFF line

BASKETS, HOLDERS AND STANDS EQUIPMENT

Mechanical basket

EXTERNAL TANKS AND ACCESSORIES

1000l IBC tank

DCT QUALITY

All of the InJet®, AirJet® and Sonix® cleaning systems developed by DCT are characterised by the highest quality on the market, high reliability, ease of use, simple maintenance, an extremely long lifespan, and the longest warranty on the cleaning system market.

These afore-mentioned benefits are achieved by the **precise manual production** of the cleaning systems in the Czech Republic, and thanks to the superior quality of the used materials and components.

Cleaning systems boast a **unique all-stainless-steel construction**, which is welded manually from AISI 304 and AISI 316 stainless steel and then chemically passivated.

The cleaning systems are designed and manufactured with a focus on **ease of use** by operators, **simple maintenance**, and **smart process parameter setting**. They are equipped with industrial PLC IDEC, a well arranged colour touch display with 3-level access (operator, maintenance, engineer), and with 3 or 5 adjustable cleaning programmes as standard.

The device **automatically and permanently checks** all **processes, operating fluid levels** and **process temperatures**, and also gives timely notification of the need to replace individual consumables or fluids.

Monitoring of the cleaning process history, whether offline or online, is ensured by an optional traceability function.

A wide range of **standard hardware** and **software equipment** is available for every cleaning system. However, DCT also excels by its **flexibility when resolving non-standard** cleaning systems and their accessories.

Our cleaning systems, together with our cleaning fluids and local application and technical support, bring you a long-term reliable, powerful and stable cleaning process, even under the most demanding continuous operation conditions.

With all its cleaning systems, DCT offers a **wide range of hardware and software equipment**, special frames with hitches for the parts you want to clean, and countless variants in addition to the basic process monitoring options which use traceability.

For more information, a list of options and a selection of suitable equipment, please contact a DCT specialist in your country or the manufacturer directly.
